Airplane Single & Multi-engine Land
Rotorcraft - Helicopter Instrument

MEDICAL: Expired Canadian Class I

NASA/Bell XV-15 TiltRotor N703NA on March 22, 2001
with Roy Hopkins (on right), BA 609 Project Pilot, Bell Textron Manned Test Flight Center

WORK EXPERIENCE:**February 2008 to Present****Vice President Business Development – HELIJET INTERNATIONAL INC. and General Manager - PACIFIC HELIPOINT SERVICES LTD.**

Primary architect of winning bid for 2010 British Columbia Ambulance Service Helicopter Request For Proposal to provide 24/7/365 helicopter air ambulance services in Vancouver and Prince Rupert, British Columbia. The contracts, valued at \$94.7 million, commence April 1, 2011 and will run for eight years each, with an option to extend for four more years.

Also was instrumental in Helijet securing, over the past few years, high-end sport fishing lodge support in Haida Gwaii, British Columbia (formerly known as the Queen Charlotte Islands). During 2009 season Helijet provided transportation between airports at Sandspit and Masset, BC and nine different lodges for five different clients.

Haida Gwaii business development role continues to be liaison with lodge clientele, determining passenger, baggage and cargo transport requirements; developing spreadsheets depicting flight schedules involving up to 5 helicopters supporting guest exchanges for as many as four different lodges a day with 48, 50, 40 and 36 guests being moved to/from the respective lodges. In addition to providing the flight schedule, each spreadsheet also projects an entire season budget for each lodge based on the number of flights, helicopter performance, rate per hour, distances, terrain and seasonal weather considerations.

Represented the Helicopter Association of Canada on Vancouver/Whistler 2010 Olympic Games Aviation Planning Committee. (<http://www.h-a-c.ca/olympics.html>)

Recently advised communities of North Thormanby Island, Bowen Island, Keats Island, Savary Island, Texada Island and Gabriola Island on assessment and development of day and night use emergency helipad locations, infrastructure and site preparation/security procedures.

March 2009 to Present**Owner/President - VertiFlight International Consulting Inc.**

Professional corporation qualified to provide fixed and rotary wing aviation regulatory compliance auditing and VFR/IFR rotary wing operational consulting. Specializing in urban area operations including multi-level IFR route and approach integration within high-density airspace environments. Also vertiport/heliport location, design, management, operation and community acceptance issue resolution as well as vertical flight scheduled service feasibility.

Currently working with The European House Ambrosetti to assist with “VertiPass” vertical flight scheduled service feasibility study for northern Italy. (http://www.ambrosetti.eu/english/fm_trasporto_aereo.php)

Quality Management Systems trained Lead Auditor/Auditor – focus ISO 9001:2008 Standard. International Business Aviation Council (IBAC) accredited auditor for International Standard of Business Aircraft Operations (IS-BAO). (http://www.ibac.org/is_bao/accredited-auditors)

June 2005 to February 2008**Vice President Safety and Business Development - HELIJET INTERNATIONAL INC.** (<http://www.helijet.com>)

Responsible for management and oversight of existing Aviation Safety Program as well as development and implementation of Company Safety Management System.

Continued responsibility for Company Business Development. Co-produced, with Helijet President, Daniel Sitnam, winning proposal (Lear 31A) in response to British Columbia Ambulance Service RFP for three year Provincial jet ambulance service contract.

Represented Helijet in partnership with Wynn Macau Development Company, LLC in delivering a response to the Government of Hong Kong RFP for the design, build, operation and management of an expanded Hong Kong/Macau Ferry Terminal Heliport. Provided interpretations of ICAO Annex 14 Volume II as well as the ICAO Heliport Manual for design purposes as well as heliport operations manual content for every aspect of heliport operation.

General Manager, PACIFIC HELIPOINT SERVICES LTD.

Continued responsibility for management and operation of Vancouver and Victoria Heliports, liaison with respective Port Authorities, Cities and community organizations. Responsible for development of budget and application for Provincial Government funds to refurbish and upgrade heliport infrastructure.

March 2003 to June 2005

Vice President, Business Development - HELIJET INTERNATIONAL INC.

Mandate to seek out and support the development of new revenue opportunities for overall company expansion.

Successful in bidding and winning contract for two helicopter air ambulances for Province of British Columbia with five-year term 2003 - 2008. Assisted in securing 12-month contract for two turbo-prop fixed wing air ambulances for Province of British Columbia when company that won 2003 - 2008 Fixed Wing RFP went bankrupt.

Director of Flight Operations

Responsible for the corporate oversight of all fixed and rotary wing, charter and scheduled Company operations. Liaison with Vancouver International Airport Authority officials regarding company fixed and rotary wing infrastructure requirements.

Fixed Wing Operations Manager

Responsible for the conduct of safe fixed wing flight operations in accordance with the Transport Canada Aviation Regulations and the FAA Federal Aviation Regulations.

Set up and managed Company fixed wing division entailing the acquisition of Transport Canada Operating Certificate for Domestic and International Charter and Scheduled operations as well as the acquisition of U.S. FAA Part 129 Foreign Air Carrier Certificate authorizing fixed wing Scheduled and Non-Scheduled International operations.

Secured operating rights, facilities and support services for Beech 1900D aircraft at Abbotsford, Campbell River, Victoria International airports in British Columbia and Boeing Field King County Airport in Seattle, Washington.

Set up Beech King Air B200 fixed wing (2) air ambulance operations including securing of Transport Canada CAR 703 Air Taxi Operating Certificate, hiring of aircrew and integration with existing Company operations.

Director of Security

Implemented Transport Canada Air Carrier Security Measures program for Company. Ensured compliance of company Security Program with U.S. Transportation Security Administration Program for Canada/U.S. cross-border scheduled services. Wrote and administered training material and exams for all personnel involved in security program.

Company Aviation Safety Officer

Responsible for management of on-going Company Safety Program.

General Manager, Pacific Heliport Services Ltd.

Responsible for management of Company heliports and heliport personnel through wholly owned subsidiary, Pacific Heliport Services Ltd. Responsible for safe operation of Vancouver and Victoria Heliports in accordance with Transport Canada Regulations and Standards. Company liaison with Transport Canada, Port Authority property lessors, respective city government and community organizations. Have overseen management and operation of Vancouver and Victoria Heliports from 1993 to present.

April 2002 to March 2003

Vice President, Business Development and Director of Flight Operations - HELIJET INTERNATIONAL INC.

May 1994 to April 2002

Vice President, Business Development - HELIJET INTERNATIONAL INC.
(corporate name changed January 2000)

Mandate to seek out and support the development of new revenue opportunities for overall company expansion. Successful in bidding and winning contract for one helicopter air ambulance for Province of British Columbia with five-year term 1998 - 2003.

Assisted in negotiation of landing rights and facilities at Boeing Field in Seattle as well as acquisition of U.S. FAA Part 129 Foreign Air Carrier Certificate authorizing rotary wing Scheduled and Non-Scheduled International operations for first ever helicopter cross-border scheduled service between U.S. and Canada.

Also provide operational consulting in vertical flight areas such as urban/airport heliport design and positioning, public acceptance, scheduled service feasibility, VFR/IFR operational procedures integration in high-density airspace, etc. Past clients include Sikorsky Export Corporation for the Taiwanese Civil Aviation Administration, Taipei, Republic of Taiwan.

Provided Taiwan Civil Aviation Administration with comprehensive comparison of all aspects of civil helicopter operations relative to regulatory environments of ICAO, Transport Canada and Federal Aviation Administration. Delivered the reports to the Taiwan Civil Aviation Administration in Mandarin Chinese as well as English language.

Also consulted for Citijet Corporation, Charlotte, North Carolina. Provided Citijet with scheduled helicopter service feasibility study.

Member of Air Transport Association of Canada Board of Directors (7 years).
And Secretary and Treasurer of Harbour Heliport Society (9 years).

July 1988 to May 1994

Vice President, Operations - HELIJET AIRWAYS INC.

Responsible for overall Company flight operations.

Elected member of Air Transport Association of Canada Board of Directors, Chairman of ATAC Helicopter Committee, Treasurer of Harbour Heliport Society and Director of Whistler Heliport Society,

June 1986 to July 1988

Director of Operations, Chief Pilot, Training Captain, M.O.T. approved Company Check Pilot, and Line Captain - HELIJET AIRWAYS INC.

Responsible for setting Company operational standards and standard operating procedures. Developed and implemented Company policy, procedures and strategy for community acceptance of scheduled urban vertical flight operations.

Pioneered LORAN C Enroute and Non-Precision Approach procedures in Canada for Company scheduled operations between Vancouver and Victoria. Successfully integrated urban area noise abatement procedures within high density IFR Airspace. Resolved community acceptance issues in Vancouver, Victoria, Canadian and U.S. Gulf Islands relative to operation of scheduled helicopter services and downtown heliports.

As Director of Flight Operations for Helijet, Secretary/Treasurer of Harbour Heliport Society and a Founding Director of Whistler Heliport Society was involved in development of Vancouver, Victoria and Whistler, B.C. heliports.

June 1985 to June 1986

Chief Pilot, M.O.T. approved Company Check Pilot and Line Pilot - MAPLE LEAF HELICOPTERS

June 1971 to June 1985

Various positions as **Line Pilot, Training Pilot, Job Manager, Base Manager, Contract Pilot for helicopter operators in the United States and Canada.** (ERA HELICOPTERS in winter of 1982 on North Slope and winter of 1984 over Cook Inlet.)

Assisted companies in formation of IFR programs including development of Operations Manuals, Emergency Response Manuals, Standard Operating Procedures, Checklists, Crew Resource Management and Flight Training. Operational expertise ranging over broad spectrum of on-shore/off-shore VFR/IFR helicopter operations. Specializing in Heli-Skiing and IFR operations including winter Arctic IFR/Night sling load operations.

May 1967 to December 1970

Warrant Officer/Helicopter Aircraft Commander - U.S. ARMY.

Served July 2, 1968 to June 29, 1969 with the 281st Assault Helicopter Company in the Republic of South Viet Nam. Primary mission was supporting the 5th Special Forces Long Range Reconnaissance Patrol Teams (LRRPS) throughout I Corp and II Corp.

Received the Distinguished Flying Cross with two Oak Leaf Clusters.
